

Luminescent gold macrocycles

Three-day visit at the University of Barcelona to design and plan the synthesis and absorption and emission spectroscopy experiments with a series of supramolecular host-guest complexes of NHC-based dinuclear gold macrocycles and a variety of guests.

Marianne ENGESER

Home Group: Dr. Marianne Engeser, Universität Bonn, DE - WG1/2

Host Group: Prof. Laura Rodriguez, Universitat de Barcelona, ES - WG1/2/3/4

Period: 25.09.2024 to 28.09.2024
